Responsible Investment Specialist
Competitive salary and benefits package for not-for-profit
London, UK

The Principles for Responsible Investment (PRI) is currently recruiting a Responsible Investment Specialist to work across their organisation. The PRI is a global initiative that assists investors in integrating environmental, social and corporate governance (ESG) across their investment processes and ownership practices.

The Responsible Investment Specialist will play a central role in developing the internal capacity on responsible investment, ensure activities and communications reflect leading SRI practice, and will be percipient of the practical challenges in implementing responsible investment.

Responsibilities will include:

- Providing expertise and advice to the different PRI workstreams
- Supporting in the development of tools, publications, reporting frameworks and events that reflect leading practice

The candidate will leverage expertise developed in an asset owner, investment manager or consultancy to ensure the PRI is in the best position to drive responsible investment practice globally. The candidate will also have:

- Experience and expertise in responsible investment implementation and integration of ESG issues into investment research and decision making across a breadth of asset classes
- Specialist knowledge of one or more aspects of investment practice, e.g. responsible investment, mainstream, themed or SRI investment management, investment analysis, corporate governance or assert consulting
- Understanding of opportunities and challenges around the implementation of responsible investment with an asset owner and/or investment manager
- A commitment to the ESG/responsible investment goals of the United Nations

This is an exciting opportunity to join a respected organisation that is having a demonstrable impact in mainstreaming responsible investment across asset classes and regions.
